		Age pots	○
18	Sandy, Bungalow site, ditch fill, no.1.	3S+	●
19	Kempston, Simco 1973 no.47.	-B	△

Notes

Cf. B2-3. The same applies here; this form was also popular in Kent and is often HM and sometimes greensand-tempered in Kent. A lot of them will be 1st century BC, but the form recurs in later contexts or even post-conquest, when it can be hard, romanised, and regular, or thick & coarse in the tradition of 'Patch Grove ware' at Richborough.
