14	Bletchley, Saffron Gardens, no.97.	R	-S	●
15	Caldecotte kiln (not illus.).	R	2S	▲

Notes

Not much of a Kent form; similar date to F5-1. Irchester (burial IV) has a Roman version in orange sandy ware, a more globular shape and closer to a globular jar form. It can be seen that these can be very large, and were being made in Bucks, kilns.
